01/08/2019	Kelly Quinnell	Case manager Therapist	0-16 CAMHS	Denize Whiston	Financial interests	I work as a private psychotherapist in the local area to my CAMHS team. This will not conflict with my role at CAMHS as I do not work with young people if they are awaiting a CAMHS referral outcome. The majority of my caseload privately is over 16 and so wouldn't be open to our CAMHS service. I do not make it known to CAMHS patients that I work privately.
05/08/2019	Stephanie Danziger	Primary Mental Health Worker	CAMHS	Nicola Lee	Financial interests	I work as a member of independent fostering panels where we make assessments of potential foster carers and review existing carers. This is private, self-employed work and happens on an irregular basis as requested by schools, e.g. once every 1-2 months. As I have no intention of delivering such work within the Cheshire East footprint and have not done so to date there is no conflict of interests.

19/08/2019	Amy Lau	High Intensity Therapist	IAPT	Janet Foster	Financial interests	Offering private practice psychological therapy

Clients are adults who self-refer either by my website, BACP "Find a Therapist" website or word of mouth recommendation.
18/10/2019	Sophie Andrew	Community Mental Health Nurse	Adult Community Mental Health	Sharon Mageean	Non-financial professional interests	Sophie's business outside of her work with CWP is in non-medical aesthetics. Anti-wrinkle injections and dermal fillers are the main treatments offered. Sophie does not work from a clinic but is mobile working in client's homes. Sophie conducts this work after 7pm and weekends around two people per week.

24/10/2019	Keir Harding	Lead Therapist / Occupational therapist	Complex Needs East	Wendy Keenan	Financial interests	Clinical Lead and CEO for Beam Consultancy. Beam provides training, consultancy and therapy around the difficulties associated with 'personality disorder'. Specific to CWP, where there are patients in private hospitals or at risk of going to a placement in a private hospital it is likely I would follow the NICE guidelines to exhaust community options first before following/maintaining treatment that is contraindicated. Where CWP is unable to meet the needs of clients in the community I may suggest commissioning therapy privately. As Beam is a company that could provide this there is a potential for this to be seen as a conflict of interest. Current ways of managing - As soon as any discussion touches on commissioning private therapy I immediately disclose my conflict of interest in this area. Where I recommend that therapy is privately commissioned I discuss with manager/colleagues to ensure that this is a shared opinion rather than mine. In supervision conflict of interest is a standing agenda item to review any activity that might impact on my work in CWP Agreed with senior managers that if I ever approach CCGs linked with CWP I should make it clear from the outset that I am a CWP employee.
------------	-----------------	---	-----------------------	-----------------	---------------------	---

24/10/2019	Keir Harding	lead therapist	Complex Needs East	Wendy Keenan	Non-financial professional interests	I am on the executive committee of the British and Irish group for the study of personality disorder. This is the leading group for clinicians, researchers and service users interested in this diagnosis in the UK. BIGSPD organises an annual conference. I would be involved in reviewing abstracts for the conference (which may be from CWP staff or service users), allocating free service user places (which may be for CWP service users) and involved in the awarding of small research grants which may come from people in the CWP area. I may also be involved in choosing the location of community of practice study days, which come with grants of £500 for the hosting organisation to arrange. Where I recognised any of the above was occurring I would declare my conflict of interest, discuss with other committee members and if agreed or I felt strongly excuse myself from that piece of decision making.

04/11/2019	Claire Heyes	Personal Assistant to Director of People Services	People Services	Jane Woods	Non-financial personal interests	I have a Herbal Aromatherapy business called Unalome which I have recently set up.
04/11/2019	Aniko Cullen	Psychological Wellbeing Practitioner	IAPT	Janet Foster	Financial interests	I am going to start working for leso Digital as an Affiliate PWP, providing digitally enabled therapy online in a part-time home based employment.
09/11/2019	Isobel Tollerfield	Advanced Specialist Speech and Language Therapist	ADHD and Autism Team	Gwen Jones	Indirect interests	Due to additional workload pressures in my role (resulting from a steep rise in referral rate), I have spent significant time discussing and developing clinical process efficiency and workflow ideas with my husband (an engineer who has designed and managed production lines and workflow in manufacturing). Based on a clinical model described in a research paper that I wrote as part of an MSc Psychology (2018), my husband has developed a semi-automated report-writing tool. The report-writing tool was created as a proof of concept to reduce clinical autism diagnostic assessment time without diminishing the quality of output for families. All information held within the tool is anonymised. Person identifiable information is not added to the report until after it has been copied into a Microsoft Word document. The tool has been used by two clinicians over the last 12 months as a trial.

						There is no current conflict of interest as this tool has not yet been commercialised or fully developed and is currently used only by two clinicians. I am declaring my husband's role in the work completed so far, for the purpose of transparency. The work may be further developed through either public or private investment if this were considered to be appropriate.
