

Greenways Carer Newsletter

Edition 16
January 2018

What's been happening?

COLLEGE CENTRE FOR
QUALITY IMPROVEMENT

Welcome to the latest edition of our newsletter.

We have started the New Year with an exciting revised weekly activity programme. Siobain Peters (occupational therapist) and Ann- Marie Taylor (Assistant practitioner) have been working hard planning a range of activities that can be accessed in the local community. The new plan was introduced to patients last week and the feedback was very positive. Mandy Pearson, who is one of our experienced Clinical support workers, has transferred roles to become an occupational therapy technical instructor.

We have had staff nurse Lorna Fisher join our team, after Mark Butler left to pursue his career in a new area of the Trust.

Our senior practitioners have been given the opportunity, as part of planning for the future, the opportunity to experience managerial roles within the unit. Marie Colledge is the first to take up this experience and becomes deputy unit manager alongside Amanda Perrin and unit manager Angela Egan.

Staff nurse Nicole Ludlow is now also a carer link together with Amanda Perrin. Patients families, carers and friends can contact either Nicole or Amanda as needed. However any member of staff will be happy to answer any questions, queries or issues should you have them.

CQC visited Greenways in January this was an unannounced Mental Health Act visit with extremely positive feedback.
