

Greenways Carer Newsletter

Edition 17
July 2018

What's been happening?

Welcome to the summer edition of our newsletter.

Following a restructure of services within Cheshire and Wirral Partnership Trust (CWP), Greenways has recently become part of the Learning Disabilities, Neuro-Development Disorders and Acquired Brain Injury Care Group. This is a positive step in that Learning Disability Services across CWP will have the same Head of Operations, Sharon Vernon and Head of Clinical Services, Charlie Ingram. As always we will endeavour to continue to build upon the 'outstanding' CQC inspection that we achieved in 2016

The activity programme that was introduced in January continues to be positively received. We have recently been able to purchase some new equipment for the unit following a successful charitable bid, which includes a trike, trampoline, swing and sensory equipment.

Ann-Marie and Mandy, our occupational therapy assistants are also in the process of creating a sensory garden with assistance from our service users. This will include scented flowers and shrubs and artwork.

Keeley Varey, occupational therapist, has also recently joined our team.

Staff from Greenways recently took part in 'Pretty Mudder' at Tatton Park. This was an event to raise money for cancer research and together they raised £820, which is a fantastic amount.

Bubble fun.

Painting the tyres for the sensory garden project
